

Build Your Confidence in Teaching Climate Science to Your Elementary Grade Students

Are you a K-6th grade educator interested in increasing your confidence in teaching students about climate change? Join [New Jersey Sea Grant Consortium](#) this winter to learn more about climate science and effective ways to teach climate change in this one-day workshop at New Jersey Sea Grant Consortium's headquarters in Gateway National Recreation Area on Sandy Hook.

Discover ways to teach the science of climate change and its impacts, all while empowering and giving hope to elementary school students. Enhance your curriculum with new activities and learn how to frame discussions on this sometimes difficult topic. Don't fret over but learn how to incorporate New Jersey Student Learning Standards (NJSLS) for Climate Change Education into lessons you may already be teaching. Earn continuing education credits, too!

Employ successful strategies to help students understand the complex subject of climate change, inspire their curiosity, and motivate them to work towards solutions for the climate-related environmental challenges that they may face in the future. All K-6th grade teachers and non-formal educators are welcome to this workshop

When: Saturday, February 25, 2023, from 10:00 a.m. -- 4:00 p.m.

Where: New Jersey Sea Grant Consortium
22 Magruder Road
Fort Hancock (Highlands), NJ 07732

Fee: \$25 per person, includes lunch
