Dear Friend of New Jersey Sea Grant Consortium,

As we look ahead to 2027, we're proud of the progress we've made together and remain dedicated to protecting and sustaining New Jersey's coastal environment. At New Jersey Sea Grant Consortium (NJSGC), we envision resilient shorelines, thriving marine ecosystems, and informed communities that understand, appreciate, and support our state's extraordinary natural resources.

Your support helps make this vision a reality. Every contribution strengthens our education, communication, extension, and research programs that keep our coasts and the people who depend on them strong. In 2026, thanks to generous donors like you, we achieved meaningful progress in advancing coastal science and stewardship.

By donating to NJSGC, you directly supported initiatives like:

- Expanding opportunities for future science communicators through internship collaborations with prestigious New Jersey universities.
- Funding nine research projects from a record number of seven institutions and securing two additional projects at the national level.
- Updating boating resources to help boaters easily locate pumpout stations, public boat ramps, and Dock-n-Dine destinations through NJBoating.org and NJBoatRamps.org.
- Keeping Ocean Fun Days free and open to the public, giving families opportunities to connect with and enjoy New Jersey's coast.
- Expanding the impact of the Green Infrastructure Champions Training Program in its eighth year by certifying 160 new champions and growing the network to 1,112 trained advocates advancing green infrastructure across New Jersey.
- Providing research and outreach to help communities implement resilience measures and reduce the impacts of a dynamic coastal environment.
